

TEACHING FOR THE WORKFORCE

Connect your Classroom to STEM Careers

JUNE 7-JULY 1, 2021

On-line course with a mix of live sessions and asynchronous modules

WORKSHOP INFORMATION:

COURSE FEE \$30

Course fee includes sessions

OPTIONAL CREDIT FEE \$70

Two units of AEA Licensure Renewal Credits are available for the additional Credit Fee.

LIVE SESSION DATES: 1-3 p.m. on June 7, 14, 21, 28 and July 1

REGISTRATION DEADLINE: June 1, 2021 or until workshop is filled.

Register today to reserve your seat.

Experience today's STEM workplaces through video tours of area companies, engaging panel discussions and innovative approaches to career development curriculum integration. During the course, you will learn about hot jobs in the area and what companies are looking for from applicants. Class participants will understand how to integrate work place concepts for continuous improvement and critical thinking into curriculum. Best of all, you will meet local entrepreneurs, community leaders and human resources professionals who are shaping the careers of tomorrow. The program allows Iowa educators, counselors and administrators first hand knowledge of the regional job market.
